INTRODUCTION

The Government of India is developing the Delhi-Mumbai Industrial Corridor (DMIC) as a global manufacturing and investment destination utilizing the 1,483 km-long, high-capacity western Dedicated Railway Freight Corridor (DFC) as the backbone. The objective is to increase the share of manufacturing in the GDP of the country and to create smart sustainable cities where manufacturing will be the key economic driver.

The plan is to develop new manufacturing cities, logistic hubs and residential townships along the DFC incorporating the philosophy of sustainability, connectivity and development; each manufacturing city will have world-class infrastructure, convenient public transport, power management and an efficient water and waste management system.

Delhi Mumbai Industrial Corridor (DMIC)

24 manufacturing cities are envisaged in the perspective plan of the DMIC project.

In the first phase, 7 cities are being developed

DELHI MUMBAI INDUSTRIAL CORRIDOR (DMIC)

The project is featured in KPMG's "100 Most Innovative Global Projects" and is one of the world's most innovative and inspiring infrastructure projects.

Government of India is building a pentagon of corridors across the country to boost manufacturing and to project India as a Global Manufacturing destination of the world.

The project has been conceptualized in partnership and collaboration with the Government of Japan and is being implemented by the Delhi-Mumbai Industrial Corridor Development Corporation (DMICDC), an autonomous body with shareholding of Government of India through Department of Industrial Policy & Promotion (DIPP) (49%), Japan Bank for International Cooperation (JBIC) (26%) and Public Financial Institutions (HUDCO -19.9%, IIFCL -4.1% and LIC – 1%).

DMIC - PHASE I. till 2019

Pithampur-Dhar-Mhow Investment Region,
Madhya Pradesh

Khushkhera-Bhiwadi Neemrana
Investment Region,
Rajasthan

Dadri-Noida-Ghaziabad
Investment Region,
Uttar Pradesh
